EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Kenneth Joung on September 23, 2004.

The application has been amended as follows:

Claim 43 has been canceled.

In claim 42, line 3, "glutamine amidotransferase (HisHF)" was amended to – HisHF glutamine amidotransferase--; and in line 4, "85%" was amended to –90%--.

The amendments were to clarify the functional activity; and Applicant's traversals filed July 27, 2004 were persuasive in part in overcoming the 112, 1st paragraph enablement and written description rejections of record. Applicant is in possession of the complete protein encoding HisHF glutamine amidotransferase at the time of filing because as indicated in Applicant's response of July 27, 2004, page 9, the complete mature protein follows the chloroplast transit peptide as indicated in Figure 1.

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Phuong T. Bui whose telephone number is 571-272-0793. The examiner can normally be reached on Monday-Friday.
